

PUNJAB STATE AGRICULTURAL MARKETING BOARD
EOI FOR ELECTRIC VEHICLE CHARGING STATIONS

Expression of Interest (EOI)

For

**Installation, Operation, and Maintenance of Electric Vehicle (EV)
Charging Stations at Kisan Bhawan, Plot No. 1, Sector 35A,
Chandigarh- 160036 on Revenue Sharing Model As per Ministry of
Power Guidelines.**

The EOI document containing the details of qualification criteria, brief objective & scope of work etc. can be downloaded from the <https://emandikaran-pb.in>

Last date of submission of EOI in Tender Box available at office of Care Taker, Store, Punjab Mandi Board, Ground Floor Sector 65A Mohali is 07.09.2026 till 12:00 PM.

**Sd/-
Secretary
Punjab Mandi Board
Mohali SAS Nagar.**

3	“Charging Infrastructure for Electric Vehicles – Guidelines and Standards” by Ministry of Power

PUNJAB MANDI BOARD

KISAN BHAWAN, SECTOR 35, CHANDIGARH

INVITATION OF EXPRESSION OF INTEREST

The Punjab Mandi Board, in alignment with national electric mobility goals and clean energy initiatives, intends to facilitate the deployment of electric vehicle (EV) charging infrastructure within Kisan Bhawan, Sector 35A Chandigarh premises to promote sustainable transportation and green energy.

Accordingly, Expressions of Interest (EOI) are invited from eligible and experienced Service providers/operators for **setting up, operating, and maintaining** a Public EV Charging Station on a **Revenue Sharing** basis, at Kisan Bhawan Sector 35A Chandigarh in accordance with the latest **Guidelines and Standards for Charging Infrastructure for Electric Vehicles**, issued by the **Ministry of Power (MoP), Government of India**. EOIs will be evaluated based on technical (Annexure I) and financial proposals (Annexure II).

The EOI document containing the details of qualification criteria, brief objective & scope of work etc. can be downloaded from the website of Punjab Mandi Board <https://emandikaran-pb.in>

This EOI is not an offer or binding commitment from the Authority. The Authority reserves the right to cancel, amend or modify the EOI process without assigning any reason.

Further details/clarifications, if any, may be obtained from the Care Taker, Kisan Bhawan, Chandigarh during working hours.

Last date of submission of EOI in Tender Box, available at office of Care Taker, Store Punjab Mandi Board, Sector 65A Mohali, SAS Nagar is 07.09.2026 till 12:00 PM.

Sd/-
Secretary
Punjab Mandi Board
Mohali SAS Nagar.

1. COMPLIANCE WITH GOVERNMENT GUIDELINES

All EV charging infrastructure must adhere to:

- **Ministry of Power (MoP) Guidelines**, including but not limited to:
 - “Charging Infrastructure for Electric Vehicles – Guidelines and Standards” (Latest Revision, including amendments till date)
 - Specifications regarding fast/slow chargers (AC and DC)
 - Open access and tariff regulations
- **CEA (Central Electricity Authority)** regulations related to electrical safety and installation.
- **Bureau of Indian Standards (BIS)** for charging equipment.
- Guidelines from **State Electricity Regulatory Commission (SERC)** or **CPDL** as Applicable.
- Technical committee means (Executive Engineer civil, Executive Engineer Electrical, Sub Division Officer, civil and Incharge, Kisan Bhawan),
- Public Charging Station means (Member of Chandigarh Power Distribution Limited)

2. SCOPE OF WORK

The selected operator shall be responsible for:

- Design, engineering, supply, installation, testing, commissioning, operation, and maintenance of EV charging infrastructure.
- Ensuring real-time connectivity with national EV charging networks (where applicable).
- Providing user-friendly payment and metering solutions.
- Coordinating with CDPL for power connection, meter installation, and tariff Compliance.
- Periodic reporting and data sharing with concerned authorities.
- Share revenue with the Punjab Mandi Board as per the financial bid and terms defined in the subsequent agreement.
- All the required civil (foundation work) / electrical work for completing the system needs to be done by the agency.
- The operation of the station shall be unmanned.
- EVSE/Chargers etc shall be type tested and ARAI test certificate shall be produced.
- The successful bidder has to submit the time schedule and programme for installation, testing and commissioning of EVSE, within fifteen (15) days from date of LoA.
- Preparation of drawings for Charging Station as per standard specifications which shall be required for execution of works shall be done by the bidder. The bidder shall get the approval of materials at the time of material inspections and also furnish before competent authority (UT energy department, MC & PMB) the documents required to obtain statutory clearance wherever necessary.

3. TECHNICAL SPECIFICATIONS / FEATURES

- **High-Capacity Charging Equipment:** The EV charging station shall be of minimum 60 kW capacity with dual charging connectors, capable of simultaneously charging two electric vehicles.
- **Smart Technology Integration:** The charging station shall support real-time monitoring, mobile application integration, and cloud-based management for efficient operation and remote monitoring.
- **Professional Installation:** Installation and commissioning shall be carried out by qualified and certified personnel in compliance with all applicable electrical regulations, safety standards, and statutory requirements.
- **Warranty:** The charging station and all associated equipment shall be covered under the manufacturer's standard warranty, along with extended maintenance support, if specified in the contract.
- **Technical Support:** The bidder shall provide 24×7 technical support, including troubleshooting, preventive maintenance, and prompt resolution of faults during the warranty period. (Toll free no. to be displayed)
- **Payment Integration:** The charging station shall support multiple payment modes, including RFID authentication, contactless payment, mobile wallets, UPI, debit/credit cards, and other digital payment options, wherever applicable.

- Scalability: The proposed charging infrastructure shall be modular and scalable, allowing future expansion to accommodate additional charging points and increased charging demand without major system modifications.
- **The offered EV Charging Station shall be of the reputed makes only e.g. Delta, Schneider Electric, Panasonic (Anchor), ABB or equivalent make as decided by technical committee/wing of Punjab Mani Board in the interest of public.**

4. SITE DETAILS

- **Location:** Parking space Backside of Satluj Beas Hall.
- **Area Available:** As required or as per site.
- **Power Infrastructure:** CDPL (Chandigarh Power Distribution Limited)

5. ELIGIBILITY CRITERIA

Applicants must:

- Be a registered legal entity in India (Company, LLP, Society, etc.).
- Have minimum Three Year experience in EV charging infrastructure, renewable energy, or power systems.(Documentary evidence to be attached)
- Have technical and financial capability to undertake the project (Documentary evidence to be attached)
- Comply with MoP, CEA, and CDPL guidelines.
- Not be blacklisted or involved in any ongoing legal dispute with a government entity.
- The Agency must have a valid electrical license for carrying out the work from any site/UT, of India. Copy of the same must be uploaded along with the tender documents.
- Electrical License of the agency or executing agency with MoU
- Manufactures/ authorized dealer/ System Integrated Partner/ Business associated of manufacturers or other agency having completed the works as mentioned below during the last three years ending previous day of last date of submission of bid:
THREE EV Charging station works completed works each costing not less than the amount equal to Rs. 13 lakh and not less than 60 kVA EV Charger work
(OR)
TWO EV Charging station works completed works each costing not less than the amount equal to Rs. 20 lakh and not less than 60 kVA EV Charger work
(OR)
ONE EV Charging station works completed works each costing not less than the amount equal to Rs. 26 lakh and not less than 60 kVA EV Charger work
- Positive balance sheet during last financial year i.e. 2025-26
- Authorized dealer / System Integrated Partner / Business associates of manufacturers need to submit the evidentiary proof issued by the Manufacturer for establishing the credentials.
-

6. TECHNICAL SUBMISSION REQUIREMENTS

Applicants must submit:

- Company Profile with Registration Documents
- Details of Similar Projects Executed (infrastructure type, clients, etc.)
- Technical Proposal (Layout, Equipment Specs, Charging Types, Safety Systems)
- Power Load Requirement and Integration Plan with DISCOM/CDPL
- Statutory Compliance (PAN, GST, etc.)

7. SUBMISSION OF E.O.I. DOCUMENTS

The bidder will submit the bid in three sealed Envelopes.

Envelope marked 'A' shall contain:

- EOI documents fees (in the shape of Demand Draft payable at Mohali in favour of Marketing Development Fund.
- Earnest money in the shape of Demand Draft payable at Mohali in favour of Marketing Development Fund.

Envelope marked 'B' shall contain:

- Experience certificate for similar nature of work duly certified by the concerned department.
- PAN No.

- GST No.
- Enlisted Certificate for minimum 100 kW roof top solar plant.
- Authorization certificate for dealership. (if any)
- Undertaking by the bidder as per Annexure I

Envelope Marked 'C' shall contain:

- Financial bid.(To be quoted in attached prescribed Performa-Annexure-II)

8. TERM AND SHARE AND OTHER CHARGES PAYABLE BY BIDDER

- a. The validity of contract or agreement shall be for Ten (10) years.
- b. The net monthly payment by the Bidder to Punjab Mandi Board shall be as detailed in Annex II of this EOI (Rent) and shall be payable monthly with the first pro-rata payment due upon the commencement of the Term. The joint meter Reading (JMR) of income generated will be provided the bidder 3rd day of each month. The successful bidder will pay the share to PMB within week from the date of generated of invoice.
- c. If share has been not paid when due, the Bidder shall accrue a payment penalty of interest at a rate of eighteen percent (18 %) per annum on a daily basis until the amount is paid in full. In this regard, all delinquent payments made shall be first applied to the Interest amount and all remaining amounts toward the outstanding rental payments.

9. FACILITIES TO BE EXTENDED TO THE BIDDER

- a. The Punjab Mandi Board will provide only a space as required, located at Parking space Backside of Satluj Beas Hall.
- b. The electricity charges will be based on meter reading issued by CPDL or sub meter provided by PMB due to single point connection.
- c. E-invoice will be generated by PMB by 7th of every month and the successful bidder will deposit charged by 15th of every month. Late deposit will be charge by 18% interest but cannot go beyond 25th of the month.

10. OBLIGATIONS OF THE BIDDER

- a. The Bidder shall use the Property for Permitted Use and for no other purpose.
- b. The Bidder shall be responsible for maintaining cleanliness and hygienic conditions at their allotted space and accessories at all times. All waste generated should be collected in separate bins (to be kept by Bidder) and delivered to the nearest garbage collection centre daily. Any want on neglect, shall invite heavy fines including premature termination of the contract.
- c. The Bidder shall be responsible for all repairs and maintenance of the Property,
- d. The Bidder shall indemnify and keep harmless Punjab Mandi Board, from and against, all actions, suit proceedings, losses, costs, damages, charges, claims, and demands of every nature and description brought or recovered because of any act or omission or default or negligence or trespass of the Bidder, its agents, or employees. The Punjab Mandi Board shall have the power and right to pay or to defend or compromise any claim of threatened legal proceedings, or in anticipation of legal proceedings being instituted consequent on the action or default of the Bidder, to take such steps as may be considered necessary or desirable to ward off or mitigate the effect of such proceedings, charging to Bidder, any sum or sums of money which may be paid and any expenses whether for reinstatement or otherwise which may be incurred and the propriety of any such payment, defense or compromise, and the incurring of any such expenses shall not be called in question by the Bidder.
- e. The Bidder shall maintain at all times at their expense comprehensive general liability insurance (personal liability and Property damage insurance) and casualty insurance for the Property against loss by fire in an insurance company that is satisfactory to Punjab Mandi Board, properly protecting and fully indemnifying Punjab Mandi Board. The Bidder shall provide Punjab Mandi Board with a copy of such insurance certification or policy prior to the commencement of the Term.
- f. The Bidder shall not any undertake improvements, alterations, or changes of any nature to the Property (interior or exterior) without first obtaining the consent of the Punjab Mandi Board in writing.

- g. Under no circumstance shall the Bidder be construed to be the agent, employee, or representative of Punjab Mandi Board. In the event a lien is placed against the Property, through actions of the Bidder, the Bidder will promptly pay the same or bond against the same and take steps immediately to have such lien removed. If the Bidder fails to have the lien removed, the Punjab Mandi Board shall take steps to remove the lien, and the Bidder shall pay Punjab Mandi Board for all expenses related to the lien and removal thereof and shall be in default.
- h. The Bidder shall comply with all rules, regulations, and laws of any governmental authority with respect to use and occupancy at the Property. The Bidder shall not conduct or permit to be conducted upon the Property any business or permit any act which is contrary to or in violation of any law, rules or regulations and requirements that may be contrary to Permitted Use. In no event shall explosives or extra hazardous materials be taken onto or retained on the Property. Furthermore, Bidder shall not install or use any equipment that will cause undue interference with the peaceable and quiet enjoyment of the Property/Building by others.
- i. The Bidder shall pay the electricity charges as per actual consumption on meter based reading.
- j. The Bidder shall ensure that no child labor shall be employed for servicing and all extant rules and regulations are complied with at all times.
- k. The Bidder shall ensure that safety standards are maintained. Wall mountable fire extinguishers should be installed in accessible places and should at all times be in working conditions. First aid measures should be available at the Property for emergencies.
- l. Other than as provided under this EOI, the Bidder shall not to assign or transfer the lease or its rights and obligations to any third party or for otherwise seek to discharge any of the obligations assumed under the Lease through any other person; directly or indirectly. However, in the case of a franchisee model:
 - (i) The appointment of franchisees shall be permitted with prior approval of Punjab Mandi Board. The appointment of franchisee would be the internal arrangement and discretion of the Bidder, however the obligations under this EOI and lease will remain that of the Bidder save for payment of Rent that may be paid by the franchisee directly to Punjab Mandi Board but in such a case the rental obligation will always remain that of the Bidder.
 - (ii) Any franchisee so appointed must be solvent, there must be no criminal record and must not be blacklisted or defaulter of any government organization or PSU.
- m. In no event the Bidder shall create any encumbrance over the Property or otherwise in any manner subject the Property, land, infrastructure and the facilities or any other asset or any other facilities belonging to Punjab Mandi Board for any purpose whatsoever.
- n. Formalities with Estate office Chandigarh, if any required will be done by contractor himself.

11. GENERAL TERMS AND CONDITIONS

- a. Acceptance of the EOI will be intimated to the successful Bidder through a letter of intent (LOI).
- b. Expression of interest received without EOI document fees & earnest money (in the shape of Bank Draft of **Rs. 10,000/-** and 25,000/- respectively in favor "Marketing Development Fund" payable at Mohali) will not be accepted.
- c. The Punjab Mandi Board has right to withdraw/cancel EOI at any stage. Any kind of dispute will be resolved amicably and in this connection, the decision of Secretary Punjab Mandi Board shall be final and binding upon both the parties.
- d. Before submitting the EOI, the Bidder must complete its due diligence that may include site visit.
- e. Punjab Mandi Board and its agents shall have complete and unencumbered right of entry to the Property at any time or times for purposes of inspecting and for the purpose of making any necessary repairs to the building or equipment as may be required or as may be deemed necessary with respect to the inspection, maintenance or repair of the Building.
- f. Inspection of the Property may be conducted by a team of officials appointed by Secretary Punjab Mandi Board. All damages / breakages etc. at the Property (other than normal wear and tear) identified by Punjab Mandi Board will be set right by Bidder within ten days of inspection failing which Punjab Mandi Board will carry out repairs / renovation works and debit the cost to Bidder and in case of non-payment same shall be adjusted from the Performance Security of the Bidder.

- g. Share will be due for payment after the site is handed over to the successful bidder. To account for the period of installation, a period of one (1) month rent free from the date of hand over of site will be granted.
- h. If the Bidder does not vacate the Property after the expiry of the Term (howsoever it may end), the Bidder is liable to pay a daily penal rent of Rs. **10,000** in addition to the other charges as applicable.
- i. On the expiry of the Term (howsoever it may end), the Bidder, subject to normal wear and tear shall hand over the Property in good condition to the Punjab Mandi Board.
- j. If the Bidder indulges in carrying out any unapproved activities the Punjab Mandi Board is at liberty to cancel the Lease.
- k. During the term of the lease, the Bidder shall develop and maintain the Property without causing any damage to its surroundings.
- l. The Bidder shall ensure that no cigarette, tobacco product or alcohol shall be sold from the Property.
- m. The Bidder shall have to enter into an lease agreement on Non-Judicial Stamp paper within days of the acceptance of the LOI. The cost of Lease shall be borne by the successful Bidder.
- n. The lease interest and the Property shall not become an asset in any such bankruptcy proceedings of the Bidder. In case of commencement of Bidder's bankruptcy proceeding, in addition to any and all other remedies available to Punjab Mandi Board, it shall be lawful for the Punjab Mandi Board to declare the Term hereof ended and to re-enter the Property and take possession thereof and all improvements thereon and to remove all persons there from, and the Bidder shall have no further claim thereon.
- o. Secretary Punjab Mandi Board reserves the right to call for additional documents of the Bidder.
- p. Secretary Punjab Mandi Board may with prior intimation to the Bidder, assign or transfer its rights and obligations under the Lease to any third party.
- q. All EV charging stations shall be designed, installed, tested, certified, inspected and Connected in accordance with these provisions and latest BIS standards.
- r. All EV charging stations shall be provided with protection against the overload of input Supply and output supply fittings as per guidelines issued by CPDL/PMB
- s. All EV charging stations shall be installed so that any socket-outlet of supply is at least 800 mm above the finished ground level.
- t. A cord extension set or second cable assembly shall not be used in addition to the cable assembly for the connection of the EV to the Electric Vehicle Charging Point. A cable assembly shall be so constructed so that it cannot be used as a cord extension set.
- u. Adaptors shall not be used to connect a vehicle connector to a vehicle inlet.
- v. EV parking place should be such that the connection on the vehicle when parked for charging shall be within 5 meter from the EV charging Point.

Note: maximum length of the supply lead is 5m.

- w. Portable socket-outlets are not permitted to be used for EV charging. Viii) Suitable lightning protection system shall be provided for the Evs charging stations as per IS/ IEC 62305 or latest as applicable.
- x. The Evs charging stations shall be equipped with a protective device against the uncontrolled reverse power flow from vehicle.
- y. Disconnection of EV: One second after having disconnected the EV from the supply (mains), the voltage between accessible conductive parts or any accessible conductive part and earth shall be less than or equal to 42.4 V peak (30 V rms) , or 60 V D.C., and the stored energy available shall be less than 20 J (as per IEC 60950). If the voltage is greater than 42.4V peak (30V rms) or 60V DC, or the energy is 20J or more, a warning label shall be attached in an appropriate position on the charging stations.
- z. Locking of the coupler: A vehicle connector used for D.C. charging shall be locked on a vehicle inlet if the voltage is higher than 60V DC The vehicle connector shall not be unlocked (if the locking mechanism is engaged) when hazardous voltage is detected through charging process including after the end of charging. In case of charging system malfunction, a means for safe disconnection may be provided. Xii) Protection against overvoltage at the battery: The DC EV charging point shall disconnect supply of electricity to prevent overvoltage at the battery, if output voltage exceeds maximum voltage limit sent by the vehicle.
- aa. Verification of Vehicle Connector Voltage- the EV Charging station shall not energize the charging cable when the vehicle connector is unlocked. The voltage at which the vehicle connector unlocks shall be lower than 60 V.

- bb. To be tested/inspected by owner/ chief electrical Inspector/ CESE and keep records that the Ev charging station has been designed, constructed and labeled to be compatible with a supply of standard voltage at a nominal frequency of 50 Hertz;
- cc. Keep records of the relevant test certificate as indicated in these guideline and as per IEC 61851 standard or latest as applicable & submit one copy to Punjab Mandi Board.
- dd. An electric vehicle charging station custodian shall arrange periodic test/inspection of an EV charging station.
- ee. The owner/operator shall establish and implement a safety assessment programme for regularly assessing the electrical safety of EVSE, conductors and fittings.
- ff. The owner/operator shall keep records of the results of every periodic assessment and details of any issues found during the assessment; and any actions required to be taken in relation to those issues.
- gg. The owner/operator shall retain a copy of all records, whether in hard copy or electronically, for at least seven years and shall provide a copy of the records to the inspecting officers & Punjab Mandi Board.
- hh. The contractor shall make available a mobile application for online booking, billing & payment; The application shall enable the user to locate the nearest compatible charging stations and reserve the available slot for current use. It shall give information regarding the various charging/ payment options available, cost of charging etc. Also it could start a charge from the customer' s phone, track usage, and manage payments. The mobile application services for management of the PCS have to be maintained by the contractor upto the extended warranty period. Integration facility to the future control center shall also be ensured. After the contract period Punjab Mandi Board shall have the right to use the application.

12. EARTH PROTECTION SYSTEM FOR CHARGING STATIONS:

- a. Co-ordination of various protective devices shall be required.
- b. All EV charging stations shall be provided with an earth continuity monitoring system that disconnects the supply in the event that the earthing connection to the vehicle becomes ineffective.
- c. Earthing of all EV charging stations shall be TN system as per IS 732. Iv) Detection of the electrical continuity by the protective conductor: A protective earth conductor shall be provided to establish an equipotential connection between the earth terminal of the supply and the conductive parts of the vehicle. The protective conductor shall be of sufficient rating to satisfy the requirements of IEC 60364-5-54. or latest as applicable.
- d. Safety provisions of all A.C. charging stations shall in accordance with IEC 61851- 1, IEC 61851-21, IEC 61851-22 and IEC 61851-24. or latest as applicable.
- e. Safety provisions of all D.C. charging stations shall in accordance with IEC 61851- 1, IEC 61851-21, IEC 61851-23 and IEC 61851-24 or latest as applicable.
- f. Where the connection point is installed outdoors, or in a damp location, the equipment shall have a degree of protection of at least IPX4 in accordance with IEC 60529. IS 17017 or latest as applicable.

13. TERMINATION OF CONTRACT

- a. The contract/lease may be terminated by either party way by serving a one (1) month prior written notice in writing any time after the third, fifth, eighth anniversary of the contract.

14. PERFORMANCE SECURITY DEPOSIT

- a. Prior to the execution of the Lease, the Bidder shall furnish an interest free security deposit of Rs. 2,00,000/- to secure the performance including the amount due to Punjab Mandi Board till the period of contract.
- b. Punjab Mandi Board shall be entitled to invoke and draw upon (and retain the amounts under) the Security Deposit in the event of any default under the Lease, including any default in the payment of Rent, and also any other dues payable to Punjab Mandi Board.

15. EOI DOCUMENT AND DISCLAIMERS

- a. EOI document can be viewed and downloaded from <https://emandikaran-pb.in>
- b. The Bidder must obtain for himself, on his own responsibility and at his own expense, all information, which may be necessary for the purpose of making the EOI offer and entering into Lease.
- c. Bidders are advised to check any correction or any modifications published subsequently on the web site and the same shall be taken into account while submitting the tender. Bidders shall download corrigendum (if any).
- d. The Bidders(s) shall strictly adhere to the form of tender.
- e. EOI submitted shall be opened through in presence of bidders or their authorized representatives.
- f. The issue of EOI document does not imply that Punjab Mandi Board is bound to select bid(s), and it reserves the right without assigning any reason to:
 - reject any or all of the Bids, or
 - cancel the process;

16. SUBMISSION OF DOCUMENTS

- a) If the Bidder agreeing the above terms and conditions, satisfying the Eligibility Conditions and interested in setting up and running the coffee shop at the Property should give the documents and information along with the Expression of Interest as detailed in Annex I and II.
- b) The EOI complete in all respects with stipulated documents along with Demand Draft of Rs. 25,000/- in favor of M.D.F. payable at Mohali as earnest Money, should be submitted and addressed to Caretaker Punjab Mandi Board, in a sealed cover by super scribing the envelop with **'Expression of Interest (EOI) EV Station at Kisan Bhawan.**
- c) All papers should be signed and stamped by the authorized signatory of the Bidder.
- d) EOI should reach the stated address on or before 07.09.2026 on 12:00 PM
- e) Tender will be open on 07.09.2026 at 3:00 PM or as intimated.
- f) EOI received after the last date and time shall not be entertained. Punjab Mandi Board shall not be responsible for postal delay / loss.

17. ARBITRATION: -

In case the dispute is not resolved amicably, the same shall be referred to sole arbitrator to be appointed mutually by the parties' accordance with the Arbitration provisions of the Arbitration and Conciliation Act, 1996 and amendments thereto. The venue of arbitration shall be SAS Nagar, Punjab and the language shall be English. The award of the Arbitrator shall be final and binding upon both parties.

Government of India
Ministry of Power

Shram Shakti Bhawan, Rafi Marg,
New Delhi, the 17th September, 2024

To,

1. The Secretaries of all Ministries/Departments of Government of India
2. The Chief Secretaries of the States/UTs

Subject: Guidelines for Installation and Operation of Electric Vehicle Charging Infrastructure-2024 – reg.

Sir/Madam,

Ministry of Power issued "Charging Infrastructure for Electric Vehicles – Guidelines and Standards" in 2018 which were amended from time to time. After careful consideration and suggestions received from various stakeholders, it has been decided that there is a need to bring greater clarity with regards to the applicability of these guidelines to public, semi-public and private charging stations, Power Utilities, Central & State agencies. Accordingly, revised consolidated guidelines titled "Guidelines for Installation and Operation of Electric Vehicle Charging Infrastructure-2024", as mentioned in the subsequent para of these guidelines, are hereby issued.

These guidelines shall supersede all the previous versions issued by Ministry of Power and shall be effective from date of its issuance.

1. **Short Title:** These guidelines shall be called "Guidelines for Installation and Operation of Electric Vehicle Charging Infrastructure-2024".
2. **Applicability:** These guidelines shall be applicable to
 - (i) Manufacturers, Owners and Operators of EV Charging Infrastructure located
 - a) In private parking spaces,
 - b) In semi restricted places like office buildings, educational institutions, hospitals, Group Housing Societies, e-bus depots and
 - c) In public places like commercial complexes, railway stations, petrol pumps, airports, metro stations, shopping arcades, municipal parking and
 - d) On highways&expressways.
 - (ii) Power utilities and Central and State agencies.
3. **Objectives:**
 - a) To drive EV adoption by making charging stations safe, reliable and accessible.
 - b) To develop a robust charging network across the Nation initially prioritising the essential locations.

Ans
17.09.2024

- c) To increase the viability of charging stations by facilitating public land at promotional rates, expeditious approval of electricity connections and standardising pricing of power supply.
- d) To encourage charging of EVs during solar hours.
- e) To prepare the electricity grid to handle the increased demand from EV charging.

4. Definitions:

- a) **Captive Charging Station (CCS)** means an exclusive facility for charging of EVs owned or controlled by the owner of charging station or governed by him under a business agreement. Example: Government Departments, Corporate entities, Bus Depots, fleet owners etc.
- b) **Central Nodal Agency (CNA)** means a Central Agency for the rollout of Public EV Charging Infrastructure across the country.
- c) **Charge Point Operator (CPO)** means any individual/entity operating the EV Charging Station.
- d) **Charger Management System (CMS)** means a system used by fleet operators, charge point operators, and others, to monitor and optimize electric vehicle charging operations.
- e) **Community Charging Station** means semi-public charging station installed at Group Housing Societies or other residential accommodations where only residents or authorized visitors can get their EV charged.
- f) **Electric Vehicle** means any vehicle propelled, partly or wholly, by an electric motor drawing current from a rechargeable storage battery, or other portable energy storage devices or other self-generating electric source, as defined by Central Electricity Authority (CEA) in Measures relating to Safety and Electric Supply" regulations 2023, as amended from time to time.
- g) **Electric Vehicle Charging Infrastructure (EVCI)** is a network of charging stations catering to diverse EV charging requirement and includes components such as EVSE, connection to DISCOM's supply system including electricity meter, Power Management System for energy optimization, energy distribution, grid stability and renewables integration, Communication network to assist data exchange in real time and remotely manage EV charging stations, cables, connectors, RFID tags, software applications, circuit breakers, solar panels (if connected), civil work, smart meter, transformer, etc.
- h) **Electric Vehicle Charging Station:** Premises having any one or more EVSEs or combination thereof, with or without supporting upstream

17.09.2024

infrastructure or amenities as specified in subsequent sections of these guidelines.

- i) **Electric Vehicle Supply Equipment (EVSE)** means an element in Electric Vehicle Charging Infrastructure (EVCI) that supplies electric energy for recharging the battery of electric vehicles as defined by Central Electricity Authority (CEA) in Measures relating to Safety and Electric Supply" regulations 2023, as amended from time to time.
- j) **Group Housing Society (GHS)** means a building unit constructed or to be constructed with one or more floors having more than two dwelling units having common service facilities where land is owned jointly (as in the case of co-operative societies or the public agencies, such as local authorities or housing boards, etc.) and the construction is undertaken by one Agency, as defined in Model Building Bye-Laws 2016, as amended from time to time.
- k) **Network Service Provider (NSP)** with respect to any electronic record is an intermediary which receives, stores or transmits or provides any service with respect to that record. This includes telecom service providers, internet service providers, web-hosting service providers, search engines, online payment sites, online-auction sites, online-market places and cyber cafes.
- l) **Open Access** means non-discriminatory provision for use of transmission lines or distribution system or associated facilities with such lines or systems by any licensee or consumer or a person engaged in generation in accordance with the regulations specified by the Appropriate Commission.
- m) **Open Automated Demand Response (Open ADR)** is an open, highly secure, and two-way information exchange model and Smart Grid standard to standardize, automate, and simplify Demand Response (DR) and Distributed Energy Resources (DER) to enable utilities and aggregators to cost-effectively manage growing energy demand & decentralized energy production, and customers to control their energy future.
- n) **Open Charge Point Interface (OCPI)** means a communication protocol that supports information exchange between multiple network service providers (NSPs) and charge point operators to enable automated roaming between public charging networks for the ease of EV charging.
- o) **Open Charge Point Protocol (OCPP)** means an open protocol used for communication between EVSE and the Charger Management system.
- p) **Public Charging Station (PCS)** means EV charging station where any electric vehicle can get its battery recharged, without access restriction.
- q) **Resident Welfare Association (RWA)** means an association comprising all the property owners within a Co-operative Group Housing Society, Multi storied Building, Residential Colony, or a similar body registered with the

Ans
17.08.2024

4

State Government, as defined in Electricity (Rights of Consumers) Rules, 2020 as amended from time to time.

- r) **Smart Charging** is a way to optimize the charging process according to distribution grid constraints, utilization of renewable energy sources and customer preference. This helps reducing transformer overloading requirement for enhancing capability of grid, mitigating voltage fluctuation in grids having high penetration of renewable energy sources. Smart charging includes bi-directional vehicle to grid integration.
- s) **State Nodal Agency (SNA)** means an agency designated by State Government for rollout of Public EV Charging Infrastructure in the state.
- t) **Unified Energy Interface (UEI)** is a standard and interoperable network based on open source Beckn Protocol, which facilitates interoperability among charging networks, flexible demand response, grid services and cloud storage.
- u) **Vehicle to Grid (V2G)** means a set of technologies which facilitates drawing unused electrical energy from electric vehicles into the grid. V2G can supply electricity to the grid during peak hours. V2G can enable electric vehicles to act as extra power source when weather-dependent renewable energy sources are not available.

Note: In case of any conflict, definitions in respective Acts, Rules & Regulation as amended from time to time shall prevail.

5. General Requirements

- (1) Setting up and operation of EV Charging Stations is a de-licensed activity and any entity is free to establish EV Charging Infrastructure by adhering to these guidelines.
- (2) Charge Point Operators may apply for an electricity connection for their EV charging stations. The Distribution Licensee must provide the required connection according to the following timelines specified under Electricity (Rights of Consumers) Rules, 2020 as amended from time to time:

S.No.	Area Type	Maximum time period within which distribution licensee shall provide new connection
1.	Metropolitan Area	3 days
2.	Other Municipal Area	7 days
3.	Rural Area	15 days
4.	Rural Area having hilly terrain	30 days

5

5.	If extension of distribution mains, or commissioning of new substations is required	90 days
----	---	---------

In case of delay in supplying electricity within the period specified by the appropriate Commission, distribution licensee shall be liable for a penalty as may be determined by the Commission as per Electricity (Rights of Consumers) Rules, 2020 as amended from time to time.

To expedite the process, Distribution Licensees must establish a customer-friendly online single window clearance system, following the Standard Operating Procedure and application form outlined in **ANNEXURE - III**.

- (3) Appropriate Electricity Regulatory Commission must pre-specify connection charges up to 150 kW as per rule 4 (13) of Electricity (Rights of Consumers) Rules, 2020 as amended from time to time. Distribution Licensee must provide Low Tension (LT) connection up to 150 kW for charging stations provided, application for a separate LT electricity connection is made for EV charging station.
- (4) State Nodal Agencies and Municipal Commissioners will conduct a yearly assessment of potential EV charging demand across their geographical area to ensure strategic placement of EV Charging Stations. State Nodal Agency (SNA) shall publish this data for benefit of Charge Point Operator.
- (5) The Ministry of Housing and Urban Affairs (MoHUA) has amended relevant sections of the Model Building Bye-laws (2016) and the Urban and Regional Development Plans Formulation and Implementation Guidelines (URDPFI — 2014) to support the growth of electric mobility. These amendments take into account evolving charging technologies, EVs with different charging needs and have a 20-year vision. Local Development Authorities are encouraged to adopt these revisions and ensure adequate space is allocated for establishing EV charging stations in new buildings and urban development plans.
- (6) Charging Station owner may adopt newer technologies for charging of EVs such as induction charging, pantograph etc. compliant with safety and connectivity requirements stipulated by CEA and BIS from time to time.
- (7) Charging stations may also integrate solar energy for their stations.

6. **Safety, Functionality and User Experience**

- (1) All Electric Vehicle Supply Equipments shall comply with BIS standards indicated at **ANNEXURE - I**.
- (2) Safety & Connectivity of Electric Vehicle Supply Equipment requirements shall be as specified in CEA "Measures relating to Safety and Electric Supply" Regulations 2023 as amended from time to time and CEA "Technical Standards for Connectivity of the Distributed Generation Resources" Regulation (2013) as amended from time to time.

12
17.05.2024

- (3) Functionality and User Experience requirements specified in **ANNEXURE – II** of these guidelines.

7. Provision of public land at promotional rates for Public Charging Stations

Initially, Public Charging Stations (PCS) may experience low usage due to the gradual increase in electric vehicles on the road. The combination of high land rent and uncertain future revenue streams can make setting up PCS financially unattractive. Therefore, the following provisions are made to lower the land cost.

- a. Government/Public entities shall offer land for installation of PCS at a subsidized rate to Government/Public entity. This will be a revenue-sharing model where the land-owning agency receives ₹1 per kWh of electricity used for charging at the station, to be paid quarterly. The revenue sharing agreement may be initially entered by parties for a period of 10 years. A model revenue sharing agreement is placed at **ANNEXURE - IV**.
- b. The Revenue Sharing Model may also be adopted by the public Land-owning agency for providing the land to a private entity for installation of Public Charging Stations on bidding basis with floor price of ₹1 per kWh.

8. Charging Fee

The total fee charged by Charge Point Operators from customers shall comprise the following components: -

- a. Electricity supply tariff which will be considered as pass through (₹ per kWh).
- b. Service charge as per Clause 10.0 of these guidelines (₹ per kWh).
- c. Land cost which will be pass through as per registered land deed (₹ per kWh).
- d. GST as applicable (₹).

9. Tariff for supply of electricity to EV charging stations

- (1) The tariff for supply of electricity to EV Charging Stations shall be single part and shall not exceed "Average Cost of Supply" till 31st March 2028.
- (2) The Distribution Licensee will charge 0.7 times the Average Cost of Supply (ACoS) during solar hours (9:00 AM to 4:00 PM) and 1.3 times ACoS during non-solar hours (remaining hours of the day).
- (3) Each EV charging station must have separate metering arrangements to accurately record consumption and apply the appropriate tariff.

69
17.09.2024

- 7
- (4) Distribution Licensee may provide sub metering for EV charger, behind-the-meter of an existing HT connection.

10. Service charges for EV Charging Stations

- (1) The following ceiling limit for service charges (excluding GST & land cost) shall be applicable till 31st March, 2028 for conductive AC/DC charging at PCS & Community EV Charging Stations setup on either public or private land. :-

S.No.	Charging Type	During Solar Hours (9:00 A.M. - 4:00 P.M.)	During Non-Solar Hours (4:00 P.M. - 9:00 A.M.)
1.	AC (Slow)	₹3.00 per unit	₹4.00 per unit
2.	DC (Fast)	₹11.00 per unit	₹13.00 per unit

***Note:** These ceiling limit are subject to annual review.

- (2) Central and State governments may offer subsidies for setting up public charging stations.
- (3) **Transparent Pricing:** EV Charging Stations will prominently display:
- Charging rates per unit.
 - Applicable service charges.
- (4) A committee under the Central Electricity Authority (CEA) will recommend service charges from time to time.

11. Charging Station Network

To ensure widespread availability, the following guidelines for Public Charging Station placement may be adopted.

(1) Density:

- Urban Areas:** By FY 2030, there will be at least one charging station within a 1 km x 1 km grid in urban areas as notified by respective state governments.
- Highways:** Charging Stations will be located every 20 km on both sides of highways, expressways, and major roads.
- Long-Range & Heavy-Duty EVs:** For long-range EVs and heavy-duty vehicles like buses and trucks, a fast-charging station (as per specifications in Clause 12 (7) of these guidelines) will be located every 100 km on each side of the designated expressways, highways and major roads. Ideally, these stations will be situated within or near existing public charging

17.07.2024

stations. Cities/Urban Development Authorities/**States** may locate these facilities in urban regions within areas such as transport hubs or bus depots.

- (2) **Flexibility:** Additional charging stations, both standard and fast-charging, can be installed beyond the minimum requirements.
- (3) **Infrastructure Planning:** State and UT governments will utilize these density/distance guidelines to:
 - a. Secure land for public charging stations.
 - b. Prioritize installation of supporting infrastructure like transformers and feeders for electricity distribution.
 - c. Implement these measures even in cases without central or state subsidies.
- (4) **Partnerships:** The government may prioritize existing fuel retail outlets operated by Oil Marketing Companies (OMCs) for installing public EV charging stations (meeting safety and connectivity standards as in **ANNEXURE – I** and **ANNEXURE - II**) to achieve the desired network coverage.
 - a. OMCs with charging facilities should prominently advertise this on their signage to inform EV owners.
 - b. Directional signs on nearby roads leading to charging stations will further enhance accessibility.
- (5) **Additional Locations:** EV Charging stations can also be installed at:
 - a. Group Housing Societies including Residential Societies
 - b. Shopping malls
 - c. Office complexes
 - d. Restaurants and Hotels
 - e. Educational institutions
 - f. Hospitals

These charging stations should allow charging for visitor vehicles and be strategically located near entrances, exits, or well-lit elevator areas for optimal accessibility.

12. Public Charging Stations – General Requirements

- (1) **EV Charger Specifications:** EV Chargers shall be as per the Indian Standards mentioned at **ANNEXURE – I**. For small size EVs such as two wheelers, three wheelers, quadri-cycles, four wheelers etc. Charge Point Operators will preferably provide a minimum 7.4 kW AC or DC EV chargers.
- (2) **User Convenience:**
 - (i) **Online Booking (Optional):** Public Charging Stations may partner with network service providers for convenient selection of EV chargers and remote booking of charging slots.
 - (ii) **Real-Time Information:** Public Charging Stations will display user-friendly information including:
 - a. Location
 - b. EV Charger types (AC/DC, kW capacity)

62
17-07-2024

- c. Number of available EV chargers
 - d. Charging rates
 - e. Any additional fees
 - f. Information specified by the Central Nodal Agency (CNA)
- (3) **Communication Protocols:** Open Standards are recommended. PublicCharge Point Operators (CPOs) may adopt open communication protocols like UEL, OCPP, OCPI or open ADR for efficient communication with DISCOMs regarding demand response. The protocols must be compliant to extant provisions of cyber security.
- (4) **Payment Options:** Flexible Payment Methods must be offered. Public Charging Stations will offer (prepaid/postpaid) payment options, potentially with time-based rates and discounts during solar hours.
- (5) **Electricity Connections:**
- (i) **Distribution Licensee Connection:** Owner of Public Charging Stations can apply for electricity connections with their Distribution Licensee following the process outlined in **ANNEXURE – III** of these guidelines.
 - (ii) **Open Access Option:** Owner of the PublicCharging Station can also choose to obtain electricity through open access within 15 days of submission of a complete application. This option involves paying a surcharge (not exceeding 20% of the tariff applicable to the category of the consumers seeking open access as per Tariff Policy 2016), transmission charges and wheeling charges. No additional fee will be applied beyond these.
 - (iii) Owner of PublicCharging Station may explore potential integration of renewable energy sources (example solar) in their charging stations.
- (6) **Station Amenities (Optional):** Larger Public EV Charging stations i.e. stations with more than 10 EV chargers for four-wheeled vehicles may offer additional amenities like washrooms, drinking water, and covered waiting areas for customers. They may also be equipped with surveillance cameras with at least one month storage.
- (7) **Fast Charging for Long-Range and Heavy-Duty EVs:** Public Charging Stations equipped for fast charging long-range EVs and heavy-duty vehicles (like trucks and buses) must meet the following specifications:
- (i) **High-Power EV Chargers:** At least two EV chargers with a minimum capacity of 240 kW each, complying with Power Levels 3 or 4 as defined in **ANNEXURE – I**.
 - (ii) **Liquid Cooled Cables (Optional):** PublicCharging Stations may also choose to provide Liquid Cooled Cables for high-speed charging of vehicles with compatible fluid-cooled batteries (a feature found in some long-range EVs).

ms
17.03.2024

13. Information about the database of Public Charging Stations:

- (1) The Bureau of Energy Efficiency (BEE) has created **National** online database of all public charging stations across India. This will help EV owners to easily locate nearby Public charging stations.
- (2) Public Charge Point Operators (CPOs) are advised to **adopt** open communication standards/protocols for data sharing like Unified Energy Interface (UEI), Open Charge Point Protocol (OCPP), Open Charge Point Interface (OCPI) & Open Automated Demand Response (open ADR).

(i) Centralized Platform:

- a. **National Database:** BEE, in collaboration with State Nodal Agencies (SNAs), will maintain a database of public charging stations nationwide.
- b. **Open APIs for third party developers:** BEE will provide open APIs to third party developer for integrating value added services to the National database. Open APIs shall be restricted to non-confidential information.
- c. **Standardized Information:** A common data format using minimal fields will ensure consistent information across all EV charging stations.

(ii) **Simple Registration:** Public Charge Point Operators will register their EV charging stations on the National database using minimal fields.

(iii) **Energy Data Sharing:** Public Charge Point Operators will share annual data on energy sold per EV charger on National database.

(3) Bureau of Energy Efficiency will provide awareness using the EV Yatra Portal.

14. Charging at Office/Commercial buildings

- (1) **New Connection:** Building/Office owner can request for a separate metered connection from Distribution Licensee with a dedicated EV charging tariff. This will be installed within the timelines specified in Electricity (Rights of Consumers) Rules, 2020 as amended from time to time.
- (2) **Existing Connections:** Building/Office owner may use their existing electricity connections to charge employee EVs at the workplace.
- (3) **Increased Load:** If necessary, Building/Office owner can apply to their electricity distribution licensee for a higher power load to accommodate EV charging stations.
- (4) **EV Charger Selection:** In consultation with the distribution licensee, commercial building owners can choose the types and number of workplace EV chargers to install based on employee needs.

15. Charging at Residence

- (1) **New Connection:** Owners can request for a separate metered connection from Distribution Licensee with a dedicated EV charging tariff. This shall be granted within the timelines specified in Electricity (Rights of Consumers) Rules, 2020 as amended from time to time.
- (2) **Existing Connection:** Owners can use their existing electricity connection to charge their EVs at home.
- (3) **Increased Load:** If EV charging station requires more power than the current sanctioned load, the owner will apply to the distribution licensee for seeking increase in the sanction load.
- (4) **Charging Rates:** Domestic electricity rates will apply to charging EVs at home.

16. Community Charging for Residents

- (1) **New Connection:** Resident Welfare Association, Group Housing Society, an owner of a flat, house in an Association, any other consumer within a GHS, can request for a separate metered connection from Distribution Licensee with a dedicated EV charging tariff. This will be installed within the timelines specified in Electricity (Rights of Consumers) Rules, 2020 as amended from time to time.
- (2) **Group Housing Societies (GHS):** In consultation with the distribution licensee, Residential Welfare Associations (Society) can establish EV charging stations within their premises.
- (3) **Choice of EVChargers:** Residents can decide on the types and number of community EVchargers to be installed.
- (4) **Visitor Charging:** Community stations can be equipped to allow charging for authorized visitor vehicles.
- (5) **Private Charging Points:** Residents can install private EVcharging stations in their designated parking spaces. The Distribution Licensee will ensure electricity supply through the resident's existing meter or a separate sub-meter depending on consumer's choice.
- (6) **Increased Load:** If community EV charging stations requires more power than the current sanctioned load, then GHS will apply to the distribution licensee for seeking increase in the sanctioned load.
- (7) **Community Charging Rates:** GHS will determine the charging fees for community charging based on the applicable electricity tariff and service ceiling limits laid down under these guidelines.

62
17.09.2024

17. Charging Stations for E-Buses

Electricity Connections:

- (1) **Distribution Licensee Connection:** Bus depot operators can apply for electricity connections with their Distribution Licensee, following the process outlined in **ANNEXURE - III** of these guidelines.
- (2) **Open Access Option:** E-Bus depots can also choose to obtain electricity through open access within 15 days of submitting a complete application. This option involves paying a surcharge (not exceeding 20% of the tariff applicable to the category of the consumers seeking open access as per Tariff Policy 2016), transmission charges, and wheeling charges. No additional fees will be applied beyond these.
- (3) State Transport Undertakings may explore potential integration of renewable energy sources (example solar) in bus depots.

Charging Station Equipment for E-Buses:

- (4) **High-Power EV Chargers:** E-Bus depots must install EV chargers with a minimum capacity of 240 kW, complying with Power Level 3 or 4 as defined in **ANNEXURE - I**.
- (5) **Liquid Cooled Cables (Optional):** For depots with e-buses equipped with liquid-cooled batteries (common in some long-range models), appropriate cables for high-speed charging of such batteries can be installed at the EV charging stations, if needed.

18. Implementation of Vehicle to Grid

- (1) EV fleets act as vast electricity storages, flexible loads and decentralised energy resources capable of providing flexibility to support power system operations. V2G may be enabled as per the requirements of respective Distribution Licensee.
- (2) Tariff for electricity under V2G operation will be as determined by the appropriate Electricity Regulatory Commission.
- (3) Public Charge Point Operators may maximise amount of smart charging instead of uncontrolled/unmanaged charging in consultation with aggregators/distribution licensee.
- (4) Public Charge Point Operators may complement EV charging stations with storages and facilitate bi-directional flow of electricity between grid and electric vehicles.
- (5) Vehicle and EVSE OEMs may explore capabilities of V2G enabled electric vehicles and EV chargers to allow grid services while protecting the vehicle batteries against overcharging and discharging.

62
17-07-2024

19. Charging station as Solar Carport

Solar carport is a dual purpose, stand-alone structure that provides shelter for vehicles, whilst generating clean, renewable energy from the sun for use on-site including electric vehicle charging.

Solar carports can be installed independently or integrated with grid. Solar carport with Battery Storage can be charged with solar energy and store energy onsite. This stored energy can subsequently be utilized to charge electric vehicles, providing an independent and sustainable alternative to traditional grid-dependent charging.

20. Implementation Mechanism

- (1) **Central Nodal Agency:** The Bureau of Energy Efficiency (BEE) will act as the Central Nodal Authority to monitor the implementation of these guidelines. All relevant agencies, including electricity distribution companies (DISCOMs), the Central Electricity Authority (CEA), and state government agencies, will be expected to cooperate and provide necessary support to the BEE.
- (2) **State Nodal Agencies:** Each state will designate a State Nodal Agency (SNA) responsible for coordinating with DISCOMs to facilitate electricity connections for public, community, workplace, and e-bus depot charging stations. State governments have the flexibility to choose their Nodal Agency. The state DISCOMs will be the default option. However, states can also designate State Public Sector Undertakings (SPSU), Urban local bodies (ULBs) or Urban Development Authorities. A state level steering committee chaired by Secretary in-charge of Energy and comprising secretaries of Transport, Municipal Administration and Urban Development, such other members as required shall be constituted to plan and monitor the implementation of EV Charging Infrastructure at the state level.
- (3) **Progress Review- Steering Committee:** A central steering committee chaired by the Additional Secretary of the Ministry of Power including members from relevant ministries, representative from states, BEE and CEA will review the implementation of these guidelines.

17.08.2024

ANNEXURE- II**Checklist – A (Safety Requirements)**

- ☒ **Reliable Wiring:** Appropriate cabling and electrical work to ensure safety.
- ☒ **Surge Protection:** Type-1 and Type-2 protection (as per Indian Standard Code IS / IEC 62305-4/IEC 61643-12 © IEC: 2008 (Edition 2.0 2008-11) to safeguard against electrical surges implemented.
- ☒ **Fire Safety:** Adequate fire protection equipment and facilities installed as per relevant Indian Standards.
- ☒ **Weather Protection:** As per Clause 12.4 of BIS 17017 (Part 1) 2018.
- ☒ **Compliances – National Regulations:** All electrical equipment installed in EV charging station complies with Central Electricity Authority regulations, specifically the Technical Standards for Connectivity of Distributed Generation Resources (2013) and Safety and Electric Supply Measures (2023), as amended from time to time.
- ☒ **Compliances - Equipment Testing:** Each EVSE model with different power ratings and communication protocols type tested by the Original Equipment Manufacturer in accordance with BIS standards specified in **ANNEXURE - I** in a testing agency accredited by the National Accreditation Board for Testing and Calibration Laboratories (NABL), with a valid Type Test certificate.

60
17.05.2024

Checklist – B (Functionality and User Experience)

- ☒ **Station Design:** The EVcharging station is well-lit and has appropriate infrastructure to meet local regulations.
- ☒ **Vehicle Manoeuvring:** Adequate space for charging vehicles and easy entry/exit provided.
- ☒ **EVCharger Options:** Stations with one or more EVchargers, compliant with standards specified in **ANNEXURE - I**.
- ☒ **Clear Instructions:** Public and semi-public EVcharging stations display visual aids/pictorial narration in English/Hindi and Local Language to guide users through the charging process.
- ☒ **EVCharger Information:** Specifications of the available EVchargers displayed on EVSE for user reference in Public charging stations.
- ☒ **Trained Staff:** EVcharging stations with more than four EVchargers manned with trained personnel on hand for safe operation. (optional)
- ☒ **Dedicated Parking:** Clearly marked and unobstructed parking spaces reserved for EV charging at charging stations.
- ☒ **Digital Convenience:** Arrangements for usage tracking, automatic billing, and convenient payment options made.
- ☒ **User Security:** Customer care number of the CPO (Charge Point Operator), National Emergency Number (112), and Women's Helpline Number (1091) prominently displayed in Public charging stations.
- ☒ **Security Cameras:** Stations equipped with CCTV cameras with a month's worth of data storage. (optional)
- ☒ **Minimum Parking Space:** Offices, commercial buildings, resident welfare associations set aside a minimum share of total common vehicle/parking capacity as specified in the building bye-laws of the state.

ANNEXURE - III (B)

Documents required from the CPO (Tentative list).

- 1) Registered land deed between Land Owning Agency and the CPO or between lessee and charge point operator in case of sub leased property.
- 2) Power of Attorney confirming powers on the person(s) who are competent to execute the MoU / agreement.
- 3) Certified copy of Company Registration Certificate.
- 4) Copy of PAN Card.
- 5) Copy of GST Registration.
- 6) Self-Attested copy of Govt. ID Proof of the Authorised Representative.
- 7) Petroleum & Explosives Safety Organization (PESO) Approval in case electricity connection required for installation of EV chargers at Petrol Pumps / Gas Stations, shall be sought by CPO.
- 8) NOC from fire department (if EV charger is to be installed in the basement of a building).
- 9) EV Charger type test certificate from NABL Accredited Lab.
- 10) Undertaking on Stamp Paper for using power supply only for public EV charging.

ANNEXURE – IV

Model Revenue Sharing Agreement between Land-Ownning Agency (LOA) and Charge Point Operator (CPO) for deployment of Public EV Charging Stations

This agreement is entered into this day of <YYYY> at, India.

BETWEEN

M/s. <Insert Name of Land Owning Agency> which expression shall unless repugnant to the context or meaning thereof, include successors and assigns of the **FIRST PART**.

AND

M/s. <Name of CPO> a Company registered under the 1956 Act, having its registered Office at <CPO registered address> (hereinafter referred to as "<CPO>" which expression shall mean and include its successor(s), administrator(s) and assigns) of the **SECOND PART**.

<LAND OWNING AGENCY> and <CPO> are hereinafter individually referred to as the "**Party**" and collectively as the "**Parties**".

WHEREAS:

- A. <Details of <LAND OWNING AGENCY> (Name & Address)>.
- B. <Details of CPO (Name & Address)>.
- C. <CPO> intends to establish, setup and operate Charging Point(s) (*defined herein below*) for charging of electric vehicles at identified sites operated by <<LAND OWNING AGENCY> Name> and <LAND OWNING AGENCY> intends to grant permission to <CPO NAME> to set up Public EV Charging Stations at selected sites in (hereinafter referred as "**Public Charging Station Locations/ SOL**") and manage the same at <LAND OWNING AGENCY> sites on mutually agreed terms and conditions outlined in this Agreement.

21

D. In consideration of the above, this Agreement sets out the intent of the Parties in relation to the said proposal.

NOW THEREFORE, in consideration of the mutual covenants, terms, conditions and understandings set forth in this Agreement, the Parties hereby agree as follows:

1. Definitions

The following capitalized terms wherever used in this AGREEMENT shall have the meanings given hereunder:

"Public EV Charging Stations(s)" means a device or station that supplies power to charge the batteries of an electric vehicle;

"CPO" mean Charger Point Operator.

"AC" shall mean Alternating Current Charging;

"DC" shall mean Direct Current Charging;

"GST" shall mean Goods and Services Tax;

"Installation Work" means the construction and installation of the Public Charging stations and upstream supply, (if required) System and the operation and maintenance thereof, all performed by or for **<CPO NAME>** at the identified site.

"kW" shall mean rating of public EV Charger;

"Operating Cost" shall include direct electricity energy charge payment through payment gateway service provider appointed by **<CPO NAME>**, salary of supervisor or equivalent level person designated for managing the backend system, salary for semi-skilled/ skilled workers appointed by **<CPO NAME>** for maintenance of chargers, annual maintenance cost of chargers, telecommunication cost, IT System cost and customer support;

"Projects/ Charging Locations" shall have a meaning ascribed in above Recital C hereof;

22

"SOL" means sites owned and/or operated by <LAND OWNING AGENCY>.

"Term" shall mean 10 years with Annual Maintenance Cost (AMC) starting from the earlier of: (a) six months from the Effective Date, or (b) the date of installation of the last Charging Point at the identified SOL in terms of this Agreement.

Effective Date: DD/MM/YYYY

"System" includes the Charging Points, assemblies, converters, switches, wiring devices and wiring, and all other material/civil works comprising the Installation Work.

2. Proposal

- a. M/s CPO Name has proposed to establish and operate up to no. of Public Electric Vehicle Charging Point(s) at SOL owned and/or operated by Land owning agency. For Setting up of such Public EV charging stations by M/s CPO, Land owning agency would provide the required space of about Sq. Ft within the premises of the identified locations subject to feasibility in order to develop the required infrastructure for charging of electric vehicles.
- b. The Parties are keen to develop partnership for the Projects/ Public EV Charging Locations at <Location Address> and may discuss further expansion at other locations, at the sole discretion of M/s <CPO Name>.
- c. The Parties shall jointly select the identified locations based on availability of space and feasibility of operation of the Public Charging Stations without affecting regular operation of the identified locations.
- d. M/s <CPO NAME> agrees to establish, setup and operate nos. of charging points at each public charging station. The Charging Station shall have chargers in accordance with Guidelines notified by the Ministry of Power. The charging infrastructure so installed shall comply with the government/ministry of power guidelines and regulations for performance, safety & quality from time to time.
- e. M/s <CPO NAME> agrees to invest in setting up and operating the public charging stations including separate power connection, transformer and meter, if required, at its own cost, and shall upgrade and refurbish the Public Charging

17.09.2024

24

respective <LAND OWNING AGENCY>) shall be free from encumbrances or hindrances, and if during the installation and operation period, the same is identified by M/s <CPO NAME>, then <LAND OWNING AGENCY> shall remove the encumbrance or hindrance or provide suitable space for the System within the same location at the cost and expense of <LAND OWNING AGENCY> with immediate effect.

- k. The Parties agree to jointly undertake the planning, design, setting-up and implementing the Projects/ Public Charging Stations at the respective <LAND OWNING AGENCY>. The Parties, *inter-alia*, agree to ensure; (a) Planning and designing the charging infrastructure in relation to the Projects; (b) Investment in the Projects by M/s <CPO NAME>; (c) Operating and maintaining the Projects by <CPOName>; and (d) Managing the Projects using cloud-based solution system software.
- l. <LAND OWNING AGENCY> shall not directly or indirectly cause, create, incur, assume, or suffer to exist any lien on or with respect to the System or any interest therein. The Project and the System shall remain the property of M/s <CPO NAME> and shall not attach to or be deemed a part of, or fixture to the <LAND OWNING AGENCY>. Neither <LAND OWNING AGENCY> nor its lessees or tenants or any other Person shall have any right, benefit, or interest in the Project.
- m. <LAND OWNING AGENCY> shall provide sufficient space at the provided location for the temporary storage and staging of tools, materials, equipment and facilities reasonably necessary during the Installation Work, or Project removal, and access for rigging and material handling.
- n. Wherever separate power connection to Public EV Charging Stations is not mandated/ not provided, <LAND OWNING AGENCY> shall provide required power to M/s <CPO NAME> for the maintenance and operation of its System at the rate <LAND OWNING AGENCY> is paying to the distribution utility at the relevant SOL and M/s <CPO NAME> shall reimburse the same to <LAND OWNING AGENCY> on actuals. In case, requires additional transformer or any expenses for providing the power, the same shall be incurred by M/s <CPO NAME>. In the event of the Govt. announcing a policy for subsidized power charges for EV charging stations, then M/s <CPO NAME> shall make necessary arrangements including separate meter and approvals as required at their own cost to avail the lower tariff.

- 25
- o. Any other activities considered necessary for setting up Public Charging Stations for electric vehicles at provided locations or other suitable locations on mutually agreed covenants/commercial arrangements, which are not specifically set out herein, but which may be identified at a later date, shall be included by mutual discussion and consent of Parties.
 - p. The number of identified locations considered for Public EV Charging Stations would not be a binding number and could be amended seeing the potential, increase in business volume, less vehicle turnaround etc., if any.
 - q. The number of Public EV Charging Stations in a cluster would be tentative and could increase / decrease subject to joint agreement between <LAND OWNING AGENCY> and M/s. <CPO NAME>. The addition or deletion of EV Charging Stations could be subsequently conveyed to each other in writing.
 - r. Branding: <LAND OWNING AGENCY> and M/s. <CPO NAME> shall do joint branding of the venture so as to create positive long-term association, market penetration, to create synergies based on unique strengths of each parties/brand, gain market share and increase revenue and also to boost the reputation of the parties in this project.

3. Payment of License Fee, Revenue Share and Billing Cycle raising of invoices, release of payments, security deposit etc.

- a. M/s. <CPO NAME> to pay <LAND OWNING AGENCY> Rs. xxx/kWh which shall be ₹ 1.0 / kWh in case of such CPO being a Government/Public Entity or at discovered price through bidding with floor price of ₹ 1 / kWh in case CPO being a private entity of billed units(kWh) from charging business starting from 1st year, of billed units from charging business to <LAND OWNING AGENCY> within days after end of Quarter.
- b. For the purpose of revenue sharing, M/s <CPO NAME> shall furnish the complete details of accounting of the billed units to <LAND OWNING AGENCY> for transparency and shall be governed by confidentiality under this Agreement.

M/s <CPO NAME> shall promptly pay the bill on monthly basis within 10 days of demand for electrical energy consumed for charging electric vehicles at the said locations as per actual minimum charges /as per actual. The charges should be paid to the <LAND OWNING AGENCY> till such time a separate meter is obtained in the name of <CPO

62
17.05.2024

26

NAME>. After obtaining a separate meter in the name of <CPO NAME>, the electricity charges shall be directly paid by <CPO NAME> based on the electrical energy consumed for charging EVs at each SOL. Dispute resolution mechanism of electricity bills, if any, to be taken up with relevant Discom with support from land owning agency.

4. Payment of Taxes

M/s <CPO NAME> shall pay all the statutory levies and taxes imposed by the Government or any other authorities present or future on the operation of EV charging stations. Further, M/s <CPO NAME> shall also pay to <LAND OWNING AGENCY> increase in the taxes and/or any levies on the land area used specifically for Public EV charging station, by any local authority including Municipal corporation/municipality/gram panchayat or any other statutory authority or by the government except property tax. <LAND OWNING AGENCY> shall pay property tax.

5. Insurance

M/s <CPO NAME> shall at all times and from time to time at its own cost and expense take out adequate and proper insurance during the continuance of this agreement from a well reputed insurance company against all risks including third party risk to persons and properties, fire and explosion risk and riot risks etc. covering operation of the Public Charging stations installed at SOL.

6. Standard Indemnification

Each party (indemnifying party) agrees to indemnify, defend and hold the other party (indemnified party) harmless from and against:

- a. Any third party claim (including intellectual property infringement claim), liability, obligation, loss, damage, deficiency, assessment, judgement, cost or expense (including, without limitation to costs and expenses incurred in preparing and defending against or prosecuting any third party litigation, claim, action, suit proceeding or demand) of any kind or character, arising out of or in any manner solely attributable to any failure of the indemnifying Party to perform its obligations described hereunder, gross negligence or wilful misconduct in the

62
17.07.2024

fulfilment of its obligations hereunder or for infringing the intellectual property rights of any third party.

- b. Any claim, liability, obligation, loss, damage, deficiency, **assessment**, judgement, cost or expense (including, without limitation to costs and expenses incurred in preparing and defending against or prosecuting any third party litigation, claim, action, suit proceeding or demand) of any kind or character arising from claims or sanctions or penalties imposed by any regulatory authority for failure by a Party or any of its respective officers, directors, employees, **servants**, sub-contractors or agents to comply with any applicable laws, rules and **regulations**.
- c. Any claim, liability, obligation, loss, damage, deficiency, **assessment**, judgement, cost or expense (including, without limitation to costs and expenses incurred in preparing and defending against or prosecuting any third party litigation, claim, action, suit proceeding or demand) of any kind or character with respect to any damage to or loss of property of a third party arising out of acts or omissions by a Party or any of its respective officers, directors, **employees**, **servants**, sub-contractors, or agents in the performance of its obligations under this agreement.

7. Term & Termination

7.1 This Agreement shall come into force from the Effective Date of this agreement and remain in force during the 'Term' as defined under Definitions above. The agreement shall be further extended for a period as decided and agreed mutually in writing by the Parties. The Agreement may be terminated / exited by the Parties prior to the scheduled validity period due to any one of the following reasons:

- a. Any misrepresentation, breach or violation of the terms of this Agreement by either of the Parties;
- b. If <LAND OWNING AGENCY> fails to provide the Charging Locations for locating the Charging Points at the identified SOL or M/s <CPO NAME> failing to install the charging Points at the identified SOL within a reasonable time as agreed mutually; and
- c. With mutual consent of both the parties without assigning any reason.

7.2 Upon such early termination, M/s <CPO NAME> shall have the right to dismantle all the System, equipment and Charging Points and take control in its custody, the

28

Charging Points, System and equipment. <LAND OWNING AGENCY> shall have no right to claim and recover any of the Charging Points and the System from any Charging Locations at the identified locations and the equipment/ infrastructure establishment by M/s <CPO NAME>.

8. Representations and Warranties

Each Party represents and warrants to the other Parties that:

- (a) it has power to execute, deliver and perform its obligations under the Agreement and all necessary corporate and other actions have been taken to authorise such execution, delivery and performance;
- (b) it has all requisite power and authority, and does not require the consent of any third party to enter into this AGREEMENT and grant the rights provided herein;
- (c) it is in compliance with all applicable laws and regulations, as may be applicable to it.
- (d) the execution, delivery and performance of its obligations under the Agreement does not and will not: (i) contravene any applicable law, or any judgment or decree of any court having jurisdiction over it; or (ii) conflict with or result in any breach or default under any agreement, instrument, regulation, license or authorisation binding upon it or any of its assets.
- (e) violate the memorandum and articles of association, by-laws or other applicable organisational documents thereof; and
- (f) there is no litigation pending or, to the best of such Party's knowledge, threatened to which it is a party that presently affects or which would have a material adverse effect on the financial condition or prospects or business of such Party in the fulfilment of its obligations under this AGREEMENT.

9. Confidentiality

9.1. During the subsistence of this Agreement and after termination or expiration of this Agreement for any reason whatsoever, the Party receiving any information and/or document which are marked as Confidential (hereinafter referred to as the "Confidential Information") shall:

Ans
17.09.2024

- a. Keep the confidential Information confidential;
- b. Do not disclose the Confidential Information to any other person without the prior written consent of the Party disclosing such information (hereinafter referred to as the "Disclosing Party") except to its employees, agents, shareholders, investors, partners and advisors on a strictly need-to-know basis, and upon such person executing a non-disclosure undertaking in respect of the Confidential Information in a format reasonably satisfactory to the Disclosing Party;
- c. Do not use the Confidential Information for any purpose other than the performance of its obligations under this Agreement; Without the prior written consent of the Disclosing Party, not to make a public announcement or any other disclosure of the Confidential Information except as required by any legal stipulation applicable to it. In case of such disclosure required by legal stipulation, a Party which is required to make such disclosure shall, as soon as practicable after it is made aware of the requirement to make such disclosure, inform the Disclosing Party of the need to disclose such Confidential Information, the content thereof and the legal stipulation which requires disclosure of such Confidential Information.

9.2. The obligations contained in the relevant clauses above shall not apply to any Confidential Information which:

- a. is at the date of this Agreement or at any time after the date of this Agreement comes into the public domain other than through breach of this Agreement by such Party; can be shown by the Party receiving the information to the reasonable satisfaction of the Disclosing Party that the same was known to such Party prior to the disclosure;
- b. subsequently comes lawfully into the possession of the Party receiving such information from a person other than the Disclosing Party; or
- c. such information which any Party is required to disclose by law, by a court of competent jurisdiction or by another appropriate regulatory body, provided that the Party required to disclose shall use reasonable endeavors to consult with the Disclosing Party and take into consideration is reasonable requests in relation to such disclosure.

10. Notice

68
17.07.2024

All communication, demand and notices required to be sent under this Agreement shall be sent or delivered to the receiving Party at the address set forth herein, or at such other address as the Parties may from time to time designate in writing:

M/s <CPO NAME>:

Address : -

.....
.....
.....
.....

Fax No.:

Email id :-

LOA:

Address:

Email id:-

Any Notice, demand or other communication shall be sent by registered post / hand delivery.

11. Intellectual Property Rights

Intellectual Property Rights owned by each respective Party shall remain the property of such Party and nothing in this AGREEMENT shall be taken to represent an assignment, license or grant of other rights in or under such Intellectual Property Rights to the other Party. All right, title and interest to all Intellectual Property of each Party as of the Effective Date of this AGREEMENT, including that which is or may become protectable by patent, copyright, trademark, trade secret or similar law, shall remain exclusively with that Party.

12. Governing Law and Jurisdiction

This AGREEMENT shall be governed by and construed in accordance with the laws of

Ans
17.09.2024

31

India. Courts at <City, State>, India shall have exclusive jurisdiction in respect of matters arising out of or in relation to this AGREEMENT.

13. Dispute Settlement

The Parties hereby agree that they shall work together to resolve any disputes that may arise under, in relation to or in connection with this Agreement (referred to in this clause as a "Dispute"). In the event such Dispute is not resolved amicably within 60 (sixty) days of the date of receipt of notice issued by disputing party with respect to same by the non-disputing party then in such case all Dispute shall be settled by binding arbitration pursuant to the Arbitration and Conciliation Act, 1996, as amended ("Arbitration Act"), in following manner:

If any dispute or difference of any kind whatsoever shall arise between the Parties in connection with or arising out of this agreement, such dispute or difference shall be resolved through arbitration as per the procedure mentioned herein below:

- a. The dispute or difference shall be referred to a sole arbitrator.
- b. The arbitration shall be through High Court Mediation and Arbitration Centre at High Court of Judicature at <city name> for the state of <state name>.
- c. The rules of the above mentioned Institutional Arbitration Forum shall be applicable to the arbitral proceedings.
- d. The Indian Arbitration & Conciliation Act 1996 and Arbitration and Conciliation (amendment) Act 2015 or any statutory modification or re-enactment thereof and the rules made there under for the time being in force shall apply to the arbitration proceedings under the clause.
- e. The seat of arbitration shall be at <city name>, <state name>, India.
- f. The proceedings shall be conducted in English language.
- g. The cost of the proceedings shall be equally borne by the parties, unless otherwise directed by the sole arbitrator.
- h. The following shall not be referred to arbitration: Disputes having financial claims less than Rs. 5 Lakhs.

Notwithstanding anything contained herein above (except 'h') upon arising of dispute the parties may agree to refer the same to arbitration of mutually acceptable sole arbitrator.

62
17.05.2024

14. Limitation of Liability

Notwithstanding anything in this AGREEMENT to the contrary and to the extent permitted by applicable law, in no event shall either Party, its officers, directors, or employees be liable for any form of incidental, consequential, indirect, special or punitive damages of any kind, or for loss of revenue or profits, loss of business, loss of information or data, or other financial loss, whether such damages arise in contract, tort or otherwise, irrespective of fault, negligence or strict liability or whether such Party has been advised in advance of the possibility of such damages. A Party will not be in breach of the AGREEMENT or be liable to the other Parties if it fails to perform or delays the performance of an obligation as a result of an event beyond its reasonable control, including, legislation, regulation, order or other act of any Government or Governmental agency.

15. Waiver

Failure of a Party to require performance of any provision of this Agreement shall not affect such Party's right to full performance thereof at any time thereafter, and any waiver by a Party of a breach of any provision hereof shall not constitute a waiver of a similar breach in the future or of any other breach. No waiver shall be effective unless in writing and duly executed by the concerned Party.

16. Assignment

Except as provided in this Agreement, none of the Parties shall be entitled to assign their rights and obligations under the Agreement to a third party without the prior written consent of the other Party, except to its affiliate companies

17. Amendment

No modification or amendment to this Agreement and no waiver of any of the terms or conditions hereof shall be valid or binding unless made in writing and duly executed by the Parties.

18. Severability

62
17.08.2024

If any provision of this Agreement is held to be invalid, illegal or unenforceable, such provision will be struck from the Agreement and the remaining provisions of this Agreement shall remain in full force and effect. Further, the Parties shall endeavour to replace such provision with a valid, legally enforceable provision that reflects the original intent of the Parties.

19. Entire Agreement

This Agreement supersedes all prior discussions and agreements (whether oral or written, including all correspondence) if any, between the Parties with respect to the subject matter of this Agreement, and this Agreement contains the sole and entire understanding and agreement between the Parties hereto with respect to the subject matter contained herein.

20. Force Majeure

Neither Party shall be held responsible for non-fulfillment of their respective obligations under this AGREEMENT due to the exigency of one or more of the force majeure events which are beyond the reasonable control of the Party concerned such as but not limited to acts of God, wars, floods, earthquakes, lawful strikes not confined to the premises of the Party, lockouts beyond the control of the Party claiming force majeure, epidemics, riots, civil commotions etc. provided on the occurrence and cessation of any such event, the Party affected thereby shall give a notice in writing to the other Party within one (1) month of such occurrence or cessation. If the force majeure conditions continue beyond six (6) months, the Parties shall jointly decide about the future course of action.

21. Survival

Those Clauses that by its nature should survive expiration or termination of this Agreement shall remain in effect after the expiration or termination of this Agreement. It specifically clarified that the provisions of Clauses 9 (*Representations and Warranties*), Clause 10 (*Confidentiality*), Clause 12 (*Intellectual Property Rights*), Clause 13 (*Governing Law and Jurisdiction*) and Clause 14 (*Dispute Settlement*) shall survive

60
17.09.2011

expiration or termination of this Agreement.

22. Counterparts

This Agreement may be signed in counterparts, each of which shall be deemed to be an original, and all of which together shall constitute the same instrument.

23. Miscellaneous

- a. It is agreed and understood by the Parties that this Agreement is a legally binding contract and under no circumstances shall stand terminated, except in terms of Clause 3 of this Agreement.
- b. This Agreement is on a principal-to-principal basis between the Parties hereto. Nothing contained in this Agreement shall be construed or deemed to create any association, partnership or joint venture or employer-employee relationship or principal-agent relationship in any manner whatsoever between the Parties.
- c. The Parties shall not use each other's name and/or trademark/logo or publicize or release any information about this Agreement or its contents or market, publish, advertise in any manner any information without prior written consent of the other Party.

24. Rules of Interpretation

- a. Irrelevance of Gender and Plurality. The definitions in this Agreement shall apply equally to both the singular and plural forms of the terms defined. Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms.
- b. Internal References. All references herein to Clauses and Annexure shall be deemed to be references to Clauses of and Annexure to, this Agreement unless the context shall otherwise require. All Annexure attached hereto shall be deemed incorporated herein as if set forth in full herein. The terms "clause(s)" and "sub-clause(s)" shall be used herein interchangeably. The words "hereof," "herein" and "hereunder" and words of similar import when used in this Agreement shall refer to this Agreement as a whole and not to any particular provision of this Agreement. The words "include", "includes", and "including" shall

62
12.09.2024

- 35
- be deemed to be followed by the words "without limitation".
- c. Default Rules. Unless expressly contradicted or otherwise qualified, (i) all references to a Person also refer to that Person's successors and permitted assigns, including permitted transferees, and (ii) all references to and definitions of any agreement, instrument or statute herein or in any agreement or instrument referred to herein mean such agreement, instrument or statute, including the Articles, as from time to time may be amended, modified, supplemented or restated, including (in the case of agreements or instruments) by waiver or consent and (in the case of statutes) by succession of comparable successor statutes and references to all attachments thereto and instruments incorporated therein.
 - d. Drafting. The Parties have participated jointly in the negotiation and drafting of this Agreement; accordingly, in the event an ambiguity or a question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the Parties, and no presumption or burden of proof shall arise favoring or disfavoring any Party by virtue of the authorship of any provisions of this Agreement.
 - e. Clause Heading: The clause heading contained in this Agreement are for the convenience of the Parties and shall not affect the meaning or interpretation of this Agreement.

25. GENERAL PROVISIONS

- a. If any provision of this AGREEMENT is held to be invalid or unenforceable to any extent, the remaining provisions of this AGREEMENT shall not be affected thereby and each remaining provision of this AGREEMENT shall be valid and enforceable to the fullest extent permitted by law. Any invalid or unenforceable provision of this AGREEMENT shall be replaced with a provision which is valid and enforceable and reflects, to the maximum extent possible, the original intent of the unenforceable provision.
- b. Each Party will be solely responsible for its own acts and omissions (and the acts and omissions of its employees and other agents) and neither Party will have the authority nor will purport to act for, or legally binding, the other Party in any transactions with a third party except as agreed in writing by the Parties.
- c. The release of any information and of all public announcements (other than when such disclosure is required under any applicable law) related to such projects by

a Party shall be subject to the prior written approval of the other Party, unless required under stock exchange regulations/SEBI.

d. This Agreement shall not be amended, modified or supplemented without prior written consent of the other Party.
